

FLOOD PREPAREDNESS

Floods are one of the most common and widespread of all disasters, and continue to grow in frequency and severity. Businesses are more likely to flood than burn down, so it is vital to prepare now.

The following checklist will help keep your business afloat even if the worst happens. Most businesses can save between 20% and 90% on the cost of stock and movable equipment by taking action to prepare in advance of flooding. The following resources and tools will help mitigate your risk and protect not only your business, but also the most critical element of your business – your people.

✓	Before the Flood
	Review Emergency Plan with team, and key employees
	Take all necessary steps to prevent the release of dangerous chemicals that might be stored on your property - locate main gas and electrical shut-offs and anchor all fuel tanks
	Postpone any receipt of goods- deliveries, couriers, etc.
	Contact insurance agent, discuss policy, etc.
	Establish emergency communication method (Alert Notification System, phone tree, etc.); identify meeting place and time for all key employees in Crisis Management Team; create voicemail for when evacuated, or out of office, etc.
	Update disaster recovery kits and begin crisis back-up procedures
	Maintain accurate inventory of product on site
	Use plugs to prevent floodwater from backing up into sewer drains, or install flood vents/or flood proof barriers
	Stay tuned to local media & community messaging
✓	During the Flood
	Life safety is paramount

FLOOD PREPAREDNESS

	Begin next phase of your business continuity plan
	Send non-critical staff home
	Raise elevators to the 2 nd floor and turn off
	Stay tuned to local media- evacuate when required
	Take cell phones, charger, critical hardware, and emergency kits with you
	Unplug electrical items before leaving
	Consider your business phones and redirection to cell phones, an answering service, or Google Voice
✓	After the Flood
	Listen for news reports to learn whether the community's water supply is safe to drink
	Avoid floodwaters; water may be contaminated by oil, gasoline, or raw sewage - water may also be electrically charged from underground or downed power lines
	Be aware of areas where floodwaters have receded, roads may have weakened and could collapse under the weight of a car
	Clean and disinfect everything that got wet, mud left from floodwater can contain sewage and chemicals
	Implement DR plan, and monitor local authorities' communication
	Contact employees via determined method of communication and discuss next steps

FLOOD PREPAREDNESS

	Contact your insurance agent
✓	Your People
	Ensure you have an emergency communication plan in place prior to the storm, evacuation, or threat
	Have all employees, vendors, and client contact information on hand
	During evacuation have a central point of contact for all employees, and ensure you know where your employees are located
	Following the flood, notify all critical people of next steps, based on damage
